

Trico Business Express & Trico Treasury Center System Requirements

Compatible software configurations and versions are required to use Trico Business Express and Trico Treasury Center.

Browsers

NOTE: Internet Explorer (Version 11) announced end-of-support (e.g., updates or patches) in June 2022.

Below is a list of supported browsers:

- Microsoft Edge (Any version currently supported by Microsoft)
- Mozilla Firefox (Version 95+)
- Google Chrome (Version 96+)
- Apple Safari browser is not officially supported; however, there are no known issues with the most recent version of Safari

Trico Secure Browser

- Any general-purpose client versions of Microsoft Windows (Home, Pro, Enterprise) or Apple macOS still supported by and receiving security updates from the vendor
- A physical computer local to the user and accessed directly by the user
- A local user profile

For Windows

- Any 32-bit or 64-bit x86 compatible processor from Intel or AMD supported by the operating system
- A PS/2 or HID type keyboard device

For macOS

- Any supported 64-bit x86 compatible Intel processor, or an Apple Silicon (M1, M2, etc.) processor when used with Rosetta 2 or later
- Trico Secure Browser **does not** function in the following platforms or configurations:
 - Windows Server, Windows Phone/Mobile, or special-purpose client versions of Windows (S, K, KN, IoT)
 - Windows on ARM processors (some Microsoft Surface Pro models, for example)
 - Virtual, thin-client, or cloud desktop systems, especially those utilizing snapshots or restore points
 - Any computer being accessed remotely (using a remote desktop type connection, for example)
 - User profiles on network locations or cloud services or otherwise utilizing Folder Redirection
 - Networks utilizing TLS inspection
 - Any security software utilizing Device Control technology
 - Anti-keylogging modules from SafeNet (used by default with FedLine) or StrikeForce Technologies

Mobile or Native Apps

- Apple iPads and iPhones running iOS 14 or newer
- Android phones and tablets running Android 8 or newer
